

HB40SP RGB

EXTERIOR LINEAR LED LIGHTBAR

POWERFUL | HIGH PERFORMANCE
13w/ft | RGB | DMX

Graze | Wall Washing | Cove | Accent Lighting

The Smart Lighting Company HB40SP RGB Series is a robust linear exterior color-changing LED luminaire merging high performance with affordability for architectural lighting. Using just 11.9 watts per foot, this fixture is tailored for precision wall grazing, washing, cove, and accent illumination. The fixture's LED board can be adjusted up to 20°, enabling precise control over lighting angles. Equipped with a universal 100/277VAC power supply and DMX modules directly mounted on the LED board, the HB40SP RGB is available in five lengths, offering a range of color temperatures to create dynamic lighting effects. The fixture is crafted using Nichia bin-sorted LEDs, renowned for their superior quality and even illumination, and paired with our strategically engineered optical lenses to maximize light output while reducing power consumption. The HB40SP RGB offers multiple customization options for fixture length, optics, and finishes. This fixture is self-addressing for easy integration and a Plug and Play power/signal connection for easy installation.
