

Motorized Retractable Landscape Lighting Disappears into the ground

ElevateLux
***Motorized Retractable
Landscape Lighting***

Transform your outdoor spaces with the innovation and intelligent design of the ***ElevateLux*** series. This advanced motorized, retractable landscape light combines modern aesthetics with functionality, delivering the perfect ambiance, whether day or night.

■ **Retractable Design**

The lights rise at sunset to illuminate your garden, pathways, or outdoor areas, and retract into the ground at sunrise, keeping your landscape clean and unobstructed during the day powered and controlled by standard 12vac landscape transformer.

■ **Versatile Applications**

Available in different models such as Path/Area Light, Wall-wash Light, and an adjustable-angle Uplight, catering to various outdoor lighting needs.

■ **Weather-Resistant**

Designed to withstand outdoor environments with waterproof and dustproof features, and winter mode, ensuring durability in all weather conditions.

■ **Patented in Taiwan & China. Patent pending in USA & Australia.**
